- 1. The petition is to assign zoning classifications to approximately 623 acres of land located in Shelby County but identified in the 2019 City of Shelbyville Comprehensive Plan as an "area of future growth" and an area on the fringe of the City of Shelbyville city limits in which the City of Shelbyville Planning Department should have planning jurisdiction.
- 2. The Unified Development Ordinance (Section 9.10 (K)) requires the Plan Commission pay reasonable regard to the following decision criteria:

a. Relation to the Comprehensive Plan:

The planning staff has determined that the proposed mix of zoning classifications including BH – Business Highway with Race Track Overlay, R1 – Single Family Residential, R2 – Two Family Residential, AG – Agriculture, IS – Institutional, and IL – Light Industrial with Race Track Overlay is consistent with the City's Comprehensive Plan and the Future Land Use Map. The Future Land Use Map identifies the area around Michigan Road and Basset Road as a mix of industrial, high-tech and residential an extension of the existing Intelliplex Business Park and current land uses in the area. The properties along the southern portion of Michigan Road are an extension of existing single family residential that is woven in and around current industry and commercial. It is aligned with the Comprehensive Plan's goals including: Built Environment objectives including:

- ant Environment objectives including.
 - BE Objective #1: Formalize the City's foreseeable future growth boundaries.
 - BE Objective #2: Guide healthy development patterns using the Future Land Use Map:
 - Action 1: Be conscientious of fringe boundary development around Shelbyville and into Shelby County.
 - BE Objective #5: Promote development and redevelopment of existing sites and buildings.

b. Current Conditions:

The petition involves assigning zoning classifications to approximately 623 acres. The subject properties are located within the within Shelby County. However, through the adoption of the Comprehensive Plan in 2019, the City of Shelbyville Planning Department was granted planning jurisdiction over the fringe areas of the City of Shelbyville corporate limits. Since the properties are located in Shelby County, they maintain a Shelby County zoning classification. Most of the properties are zoned A1 – Conservation Agriculture, A2 – Agricultural or R1 – Single Family Residential. Both the A1 and A2 zoning districts are intended to support low to medium intensity general agricultural operations and the R1 district is intended for single family homes.

c. Desired Use:

The City's Comprehensive Plan has identified this area for industrial and high-tech growth as well as for residential growth. The industrial and high-tech growth is along the northern section Michigan Road corridor as an extension of the Intelliplex Business Park and the residential growth is along Basset Road and the southern section of Michigan Road. All of these areas have direct access to interstate 74 at either the County Road 400 North interchange or the North Riley Highway /SR 9 interchange. The proposed zoning mimics existing Shelby County zoning, except for the parcels north of Indiana Grand Racing and Casino that would transition from Agriculture to Light Industrial with the Race Track Overlay district.

d. Property Values:

The planning staff has determined that the proposed rezoning should not have any adverse impact on neighboring property values. Since the area being rezone mimics the existing zoning, there will not be an adverse impact on property values.

e. Responsible Growth:

The planning staff has determined that the public infrastructure is in place and has sufficient capacity for the proposed rezone. The rezone is along existing transportation corridors that are service with all utilities.

STAFF RECOMMENDATION: Favorable recommendation on the proposed zoning map amendments.

Rezone (Zoning Map Amendment): PC 2021-19: Extra-territorial Jurisdiction Area #2
